RUSSELL HENRY GIN®

**DISTILLED WITH REAL FRUIT
& RARE BOTANICALS**

“★★★★★ A new landmark in American gin-making”. Highest ranked gin and no.11 in the list of 100 best spirits – Paul Pacult, SPIRIT JOURNAL

**LONDON DRY
HAWAIIAN GINGER
MALAYSIAN LIME**

Crispin Cain has worked his usual magic, distilling on both his 2.7HL Holstein potstill and the 13HL antique Germain-Robin cognac still.

The method is infusion and redistillation. The selected botanicals include juniper, coriander, orris root, and lemon peel. For the real-fruit versions, he chose the leaves and fruit of the *limau purut*, a deep-flavored lime native to Malaysia, and Hawaiian ginger sourced from an organic grower on Kauai.
