RUSSELL HENRY

GIN DISTILLED WITH REAL FRUIT & RARE BOTANICALS

Crispin Cain has worked his usual craft-method magic, distilling on both his 27HL Holstein potstill and the 13HL antique Germain-Robin cognac still.

The method is infusion and distillation of selected botanicals and, for the infused versions, the leaves and fruit of the *limau purut*, a deep-flavored lime native to Malaysia, and Hawaiian ginger sourced from an organic grower on Kauai.
