

individual barrels of custom-blended brandy

following several enquiries from retailers, we have assembled ten barrels of excellent brandy, each with slight variations from the others, each an appealing, rich, and tasty blend of VSOP-level and older varietal brandies. The blends will include components more than 20 years old). By offering these blends in large lots, we will ship them at an FOB that allows a \$60 shelf price at full mark-up.

Each blend has been assembled into (and further aged) in a 350-liter Limousin oak barrel, whose number will appear on the label. At bottling, the barrel will normally yield some 37–38 cases, 12 x 750ML (there is minor variation and loss in bottling). The brandy will receive only a polishing filtration. If you order an entire barrel, you may specify unfiltered brandy.

You may order either a full barrel, a half-barrel (18cases), or a quarter barrel. (9 cases) There will be a lag between order and delivery because we must apply for federal approval on a label with your name on it and (in most states) register the label with your state liquor authority.
